TO WHOM IT MAY CONCERN

We have been using the Treatment Planning System of TSG Integrations, New Delhi for nearly 12 years. To start with we had "RADPLAN" and subsequently we upgraded the system six years back and incorporated "ASHA".

We are happy with the "RADPLAN" and "ASHA" and found them to be very useful and adequate in our day to day planning of external beam therapy and brachy therapy cases. The service support in this regard is good.
